25X1

MEMORANDUM FOR:

[redacted]
Mr. Houston

SUBJECT : Procedure for Processing Regulatory Material

25X1

25X1

1. [redacted] has been discussing with [redacted] the regulation problem. He has prepared (and modified to meet several points I raised) the attached proposal for procedure and intends to submit it to Mr. [redacted]. He may also invite us to attend the meeting with the ADD/S and DD/S. He also may seek RCS's views.

25X1

2. The plan is that when the ADD/S receives a proposed issuance pursuant to paragraph 2b he will refer it to this Office and to SSA/DD/S. It is Mr. [redacted] thought that, on the advice and with the assistance of the two offices, the ADD/S will disapprove some proposals, re-write, modify or correct some texts, and prescribe which form of issuance is to be used, as well as approve some proposals without change.

25X1

3. In effect the proposal converts the ADD/S into a high level C/RCS, with SSA/DD/S and this Office serving as his staff.

4. If you approve, I will concur orally.

25X1

appears to make sense

L.R.H. [signature]
